**\$1,858**

Energy Saved

**21,793 kWh**

Measure

**Lighting and Controls**

Program

**Prescriptive**

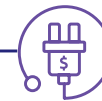

Opportunity Zone

☒ **Yes**    ☐ **No**

The Montgomery County Humane Society (MCHS) helps keep pets and families together through adoption, education, and community support. By upgrading its facility with energy-efficient LED lighting and occupancy controls, MCHS created a safer, more efficient space while freeing up resources for animal care, outreach, and adoption services.

“The new LED lighting has improved comfort throughout our facility for animals, staff, and visitors, while upgraded exterior lighting enhances safety. The project delivered a noticeable improvement in both the appearance and functionality of our building.”

—Javier Baquero, Administrative/HR Manager

Project Cost

**\$28,588**

Payback Period (Years)

**7.7**

GHG: Miles driven by gas-powered vehicles\*
