

Rebate Application – Terms and Conditions Signature Form

HVAC Efficiency Program (January 1, 2019–December 31, 2019)

An Exelon Company

Terms and Conditions for HVAC Equipment Installations

APPLICATION: These Terms and Conditions govern participation in Pepco's HVAC Efficiency Program ("Program") by the undersigned Pepco residential customer ("CUSTOMER"). CUSTOMER must ensure that all documentation submitted to the HVAC Efficiency Program is complete, truthful, and accurate to the best of CUSTOMER'S knowledge. **CUSTOMER is advised to retain a copy of this Terms and Conditions document and contractor invoice submitted to the HVAC Efficiency Program. Pepco will not be responsible for lost documentation.** This Program covers eligible installed product rebate applications submitted January 1, 2019 through December 31, 2019. Details of the HVAC Efficiency Program, including rebate levels, are subject to change or cancellation without prior notice. **The installing participating contractor is responsible for submitting CUSTOMER'S rebate application online. This Terms and Conditions document, the online rebate application and all required documentation must be submitted online and received within 30 days of the date of installation.** Funds for rebates are limited and available on a first-come, first-served basis. Rebate amounts are valid while funds last. Please call 1-866-353-5798 or visit pepco.com/HVAC for the most up-to-date details.

ELIGIBILITY: CUSTOMER is eligible for HVAC Efficiency Program rebates by installing eligible measures at a one- to four-family residence in Maryland that receives electricity distribution service from Pepco and that has a working central air conditioner, heat pump, or other primary electric heating system. Eligible measures must be installed by an independent contractor who is actively participating in the HVAC Efficiency Program ("HVAC CONTRACTOR"). Eligible rebates and active HVAC CONTRACTORS are listed at pepco.com/HVAC. This offer is not valid for new construction homes or commercial properties, except for geothermal products, which are valid for new construction homes that are not ENERGY STAR® certified. For information on Pepco's ENERGY STAR New Homes Program and other energy efficiency programs, visit pepco.com/saveenergy.

PROOF OF EFFICIENCY: In order to qualify for an HVAC Efficiency Program equipment rebate, a system must be AHRI certified. A copy of the AHRI Certificate must accompany the online application.

PROOF OF PURCHASE: In order to qualify for an HVAC Efficiency Program rebate, a copy of an executed agreement for eligible HVAC measures between CUSTOMER and a participating HVAC CONTRACTOR must be submitted to the Program as proof of purchase. The copy of such agreement must include a detailed scope of work indicating equipment type, make, price (i.e., the total price before any rebate plus a final total price showing any rebate discount amount applied if the HVAC CONTRACTOR is the designated rebate payee), and date of installation.

APPROVAL, VERIFICATION, AND INSPECTION: Prior to any payment of rebates, Pepco reserves the right to verify sales transactions and installations in order to ensure that the installed measures match the documentation provided to the Program and to confirm that the measures installed meet program guidelines. HVAC CONTRACTOR will verify that the installed energy-saving measures meet all applicable building codes; zoning laws; local, state, and federal requirements; and other relevant requirements. HVAC CONTRACTOR is responsible for any applicable permits as required by aforementioned codes/laws. CUSTOMER'S home may be selected for a quality control post-installation inspection by Pepco. No warranty is implied by this inspection.

HVAC CONTRACTOR must submit digital photo(s) or manufacturer/distributor's documentation that includes complete model and serial number of all indoor and outdoor (if applicable) equipment installed.

HEALTH AND SAFETY: CUSTOMER understands that if any health and safety issue is found at the time of installation, the project will not be considered complete until the HVAC CONTRACTOR installing the measure(s) submits documentation that the proper remediation of the health and safety issue identified during the installation has been completed.

PAYMENT: Please allow up to four to six weeks for rebate check payment. Payment processing may take longer if information is missing on the submitted online rebate application or required documentation is incomplete or erroneous. Please visit pepco.com/HVAC or call 1-866-353-5798 if you have any questions about your rebate or accompanying documentation.

TAX LIABILITY: Pepco will not be responsible for any tax liability that may be imposed on CUSTOMER as a result of the payment of rebates. Please contact your tax advisor for more information.

SCANNED: Scanned original documents transmitted to Pepco as an attachment via electronic mail shall be the same as delivery of the original signed document. At the request of Pepco, CUSTOMER shall confirm documents with a facsimile transmitted signature or a scanned signature by providing the original document.

ENDORSEMENT: Pepco, in promoting this Program, does not endorse any particular manufacturer, product, system design, claim, or participating HVAC CONTRACTOR.

INFORMATION RELEASE: CUSTOMER agrees that Pepco may include CUSTOMER'S name, Pepco services and resulting energy savings in reports or other documentation submitted to Pepco or the Maryland State Public Service Commission. Pepco will treat all other information gathered in evaluations as confidential and report it only in the aggregate.

LIMITATION OF LIABILITY: Pepco's liability is limited to paying the rebate specified. **PEPCO IS NOT LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES, OR FOR ANY DAMAGES IN TORT CONNECTED WITH OR RESULTING FROM PARTICIPATION IN THIS PROGRAM.** Pepco reserves the right to not pay this rebate if the application form is not filled out completely and accurately.

WARRANTIES: **PEPCO DOES NOT WARRANT THE PERFORMANCE OF INSTALLED EQUIPMENT, EXPRESSLY OR IMPLICITLY. PEPCO MAKES NO WARRANTIES OR REPRESENTATIONS OF ANY KIND, WHETHER STATUTORY, EXPRESSED, OR IMPLIED, INCLUDING WITHOUT LIMITATIONS, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE REGARDING THE INSTALLED EQUIPMENT BY A MANUFACTURER, VENDOR, OR CONTRACTOR.** CONTACT HVAC CONTRACTOR FOR DETAILS REGARDING EQUIPMENT PERFORMANCE AND WARRANTIES.

CUSTOMER CERTIFICATION: By signing below, CUSTOMER certifies that he/she has authorized the installation of the HVAC Efficiency Program equipment at the defined location as indicated on the HVAC CONTRACTOR'S invoice and that he/she has reviewed and understands the above Terms and Conditions for participating in the HVAC Efficiency Program and receiving program rebates. CUSTOMER further represents that CUSTOMER has the right to complete and/or install the energy-saving measures on the property on which those measures are completed and/or installed and that any necessary landlord's consent has been obtained. By signing below, HVAC CONTRACTOR attests to having witnessed signature by CUSTOMER or CUSTOMER'S legal guardian or power of attorney.

Rebate Application – Terms and Conditions Signature Form

HVAC Efficiency Program (January 1, 2019–December 31, 2019)

Rebate Type and Amount (See individual program overview for rebate requirements.) Check all that apply.

- Air Source Heat Pump Tier 1: ≥ 16 SEER & ≥ 13 EER & ≥ 9.0 HSPF **\$400** Quantity _____
- Air Source Heat Pump Tier 2: ≥ 18 SEER & ≥ 13 EER & ≥ 9.5 HSPF **\$650** Quantity _____
- Central Air Conditioning Tier 1: ≥ 16 SEER & ≥ 13 EER **\$300** Quantity _____
- Central Air Conditioning Tier 2: ≥ 18 SEER & ≥ 13 EER **\$500** Quantity _____
- Geothermal Heat Pump (Closed Loop): ≥ 17.1 EER & ≥ 3.6 COP¹ **\$1,500** Quantity _____
- ECM Furnace Motor—Factory Installed **\$50** Quantity _____
- ECM Furnace Motor—Retrofit **\$100** Quantity _____
- ENERGY STAR® Certified Smart Thermostat **\$100** Quantity _____

Do you have central air conditioning? Yes No

What is the primary heating type/fuel used to heat your residence? Electric Natural Gas Propane Oil Other: _____

What HVAC system(s) is the new smart thermostat controlling? Heat Pump Furnace Boiler Central A/C

Is this new or existing HVAC equipment being controlled? New Existing

What is the efficiency of the HVAC units being controlled? SEER _____ AFUE _____

What is the size of your HVAC unit? Cooling/Tons _____ Heating/BTUs _____

¹ Geothermal products installed at new construction homes that are not ENERGY STAR certified are eligible for a rebate.

Total rebate amount: \$ _____

Rebate to be paid to: Customer Contractor
