

## OUTDOOR LIGHTING SERVICE

### SCHEDULE "OL"

**AVAILABILITY**

Available for Distribution Service and Standard Offer Service when modified by Rider "SOS" in the Maryland portion of the Company's overhead service area for outdoor lighting purposes on customers' premises subject to local ordinance or other appropriate approval.

Not available for street lighting purposes.

**CHARACTER OF SERVICE**

A photoelectrically controlled outdoor suburban type lighting fixture with high pressure sodium lamp (mercury vapor no longer available as of January 1, 2008) to be owned by the Company will be installed on either an existing Company pole or an approved customer-owned pole installed and maintained at the customers' expense.

Electricity will be supplied from existing overhead secondary distribution system facilities on an unmetered basis. This service will be controlled for daily operation from dusk to dawn for an aggregate of approximately 4,200 burning-hours per year.

**MONTHLY RATE**

Charge for installation and maintenance of Company-owned equipment and the supply of electricity for operation:

| Distribution Service Charge                   | Rate Year 1<br>Effective<br>June 28, 2021 –<br>March 31, 2022 | Rate Year 2<br>Effective<br>April 1, 2022 –<br>March 31, 2023 | Rate Year 3<br>Effective<br>April 1, 2023 –<br>March 31, 2024 |
|---|---|---|---|
| <b>Mercury Vapor 175 Watt per lamp</b>        | \$ 11.40  | \$ 11.65  | \$ 11.89  |
| <b>Mercury Vapor 250 Watt per lamp</b>        | \$ 13.31  | \$ 13.60  | \$ 13.88  |
| <b>Mercury Vapor 400 Watt per lamp</b>        | \$ 17.13  | \$ 17.51  | \$ 17.87  |
| <b>Overhead Wire per span</b>                 | \$ 1.58   | \$ 1.61   | \$ 1.64   |
| <b>High Pressure Sodium 100 Watt per lamp</b> | \$ 11.40  | \$ 11.65  | \$ 11.89  |
| <b>High Pressure Sodium 150 Watt per lamp</b> | \$ 13.31  | \$ 13.60  | \$ 13.88  |
| <b>High Pressure Sodium 250 Watt per lamp</b> | \$ 17.13  | \$ 17.51  | \$ 17.87  |

**Generation and Transmission Service Charges** - Customers who do not receive service from an alternative Electric Supplier as defined in the Company's General Terms and Conditions will receive Generation and Transmission Services from the Company under the provisions of Rider "SOS" – Standard Offer Service.

**METER READING**

Watt-hour meters will be read to the nearest multiple of the meter constant and bills rendered accordingly.

**GROSS RECEIPTS TAX**

A surcharge of 2.0408% is applied to the transmission and distribution components of the customer's bill to recover the amount attributable to the Gross Receipts Tax.

**GENERAL TERMS AND CONDITIONS**

This schedule is subject in all respects to the Company's "General Terms and Conditions for Furnishing Electric Service" and the Company's "Electric Service Rules and Regulations" and it is further understood that:

1. Lamp renewal and other necessary maintenance work will be performed by the Company as soon as reasonably practical after notification by the customer of the necessity therefore, but such work will only be done during regular day-time working hours.
2. Normally, lighting fixtures will not be installed on poles carrying 34.5 kV or higher voltages, or on poles supporting voltage regulators, two or more transformers or other similar equipment.
3. The Company reserves the right to discontinue the service at any time when the lighting fixture involved has been frequently damaged, apparently as a result of vandalism.

**APPLICABLE RIDERS**

Standard Offer Service – Type I Non-Residential  
Administrative Credit  
Delivery Tax Surcharge  
Montgomery County Surcharge  
Maryland Environmental Surcharge  
Empower MD Charge  
Non-Residential Direct Load Control  
Demand Resource Surcharge  
Grid Resiliency Charge  
Economic Relief and Recovery Rider  
MYP Adjustment Rider

**STREET LIGHTING SERVICE  
SCHEDULE "SL"****AVAILABILITY**

Available for Distribution Service and Standard Offer Service when modified by Rider "SOS" for street, highway and park lighting purposes in the Maryland portion of the Company's service area when owned by agencies of Federal, State and Municipal governments.

Also available for holiday lighting and seasonal street decoration lighting where the lights are in public space and where the only load supplied is lighting load. Schedule "SL" is not available for services that supply any load other than lighting and telecommunications network devices supplied under Rider "SL-TN".

**CHARACTER OF SERVICE**

Electricity supplied to multiple lights normally will be sixty hertz, single phase, 120 volts.

**MONTHLY RATE**

| <b>Distribution Service Charge</b> | <b>Rate Year 1<br/>Effective<br/>June 28, 2021 –<br/>March 31, 2022</b> | <b>Rate Year 2<br/>Effective<br/>April 1, 2022 –<br/>March 31, 2023</b> | <b>Rate Year 3<br/>Effective<br/>April 1, 2023 –<br/>March 31, 2024</b> |
|------------------------------------|---|---|---|
| <b>Standard Night Burning</b>      | \$ 0.02425  | \$ 0.02521  | \$ 0.02612  |
| <b>24-Hour Burning</b>             | \$ 0.02427  | \$ 0.02523  | \$ 0.02614  |

**Generation and Transmission Service Charges** - Customers who do not receive service from an alternative Electric Supplier as defined in the Company's General Terms and Conditions will receive Generation and Transmission Services from the Company under the provisions of Rider "SOS" – Standard Offer Service.

**Billing Credit** - A monthly billing credit in the amount of \$0.74 will be applied to the bill of each customer receiving a consolidated bill from an alternative supplier for services provided both by Pepco and by the alternative supplier.

The above charges do not include furnishing and/or maintaining street lighting equipment.

**MEASUREMENTS OF ELECTRICITY**

If electricity delivered for street lighting is unmetered, monthly kilowatt-hour consumption will be computed on the basis of manufacturers' wattage ratings of installed lamps, auxiliary devices where required, and scheduled 4,200 hours of burning time. If metered, watt-hour meters will be read to the nearest multiple of the meter constant and bills rendered accordingly.

Lights controlled for night burning only will be billed at the monthly rate for Standard Night Burning street lights. Lights not controlled for night burning only will be billed at the monthly rate for 24-Hour Burning street lights.

**METER READING**

Watt-hour meters will be read to the nearest multiple of the meter constant and bills rendered accordingly.

**GROSS RECEIPTS TAX**

A surcharge of 2.0408% is applied to the transmission and distribution components of the customer's bill to recover the amount attributable to the Gross Receipts Tax.

**GENERAL TERMS AND CONDITIONS**

This schedule is subject in all respects to the Company's "General Terms and Conditions for Furnishing Electric Service" and the Company's "Electric Service Rules and Regulations."

---

**CHARGES FOR SERVICING**  
**STREET LIGHTS SERVED FROM OVERHEAD LINES**  
**SCHEDULE "SSL-OH"**

**AVAILABILITY**

Available in the Maryland portion of the Company's service area to Municipal, County, Federal and State Governmental Agencies for servicing street, highway and park lighting equipment mounted on Company-owned wooden poles or on poles of another utility with whom the Company has an attachment agreement, when the electricity supplied to such equipment is furnished by the Company from overhead lines.

Available only for lights having a manufacturer's nominal rating of:

|                      |                                 |
|----------------------|---------------------------------|
| Incandescent*        | 10,000 lumens or less           |
| Mercury Vapor*       | 175, 250 and 400 Watts          |
| High Pressure Sodium | 70, 100, 150, 250 and 400 Watts |
| Induction QL*        | 55 and 85 Watts                 |

\*Not available for new installation or replacement of defective fixtures.

**CHARACTER OF SERVICE**

Service rendered under this schedule will consist of (1) furnishing, installing and maintaining street lighting luminaries and mounting arms or brackets, (2) furnishing, installing, connecting, operating and maintaining electric service circuits connecting the street lighting equipment to the Company's overhead distribution system, (3) group relamping, (4) washing of globes, (5) furnishing and installing replacement globes, lamps, ballasts and light sensitive switches as needed to maintain the system in an operating mode; all normally limited to standard items of equipment meeting ANSI Standards for street lighting equipment and accepted by the Company for maintenance.

If the Customer agrees in writing with the Company, the Customer may own their street lighting equipment at all locations to include the bracket, fixture, ballast, light sensitive switch unit, and lamp. The maintenance for which can be supplied by the customer or the Company. The supply circuits terminating at the luminare would still be owned and maintained by the Company.

Street lights will be installed on existing Company-owned distribution poles or on existing poles owned by another utility where practicable.

\*Not available for new installation or replacement of defective fixtures.

The above charges will be separate from and in addition to charges for electricity supplied under the provisions of Schedule "SL".

**CONTRIBUTION-IN-AID-OF-CONSTRUCTION**

The Company will install, remove, or convert each street light upon payment by the customer of a one-time contribution in aid of construction equal to the average cost per street light during the most recent three year period available. This fee shall be updated annually.

For a new overhead street light, this cost shall normally include the following:

1. The luminaire including the lamp, ballast, globe, light-sensitive switch, and mounting arm or bracket; plus,
2. Connection of the street light to the Company owned low voltage (120 volts) overhead distribution system; plus,
3. Installation of replacement poles if required by either the Company or another utility; plus,
4. Tree trimming and adjusting Company owned facilities or the facilities of another utility, in order to provide adequate clearances for the street light.

As discussed under Character of Service, if the Customer agrees in writing with the Company, the Customer may install their own street light and mount. The contribution-in-aid-of-construction shall include only the estimated cost of connecting the new supply (items 2-4 above).

For removing a street light, the contribution-in-aid-of-construction shall normally include the estimated reasonable cost of removing the existing luminaire (and/or bracket, if also removed). This removal charge shall not apply where the light is removed temporarily for repairs to the light or pole, or relocated in the immediate vicinity at the convenience of the Company (or other utility owning the pole on which the light is mounted).

For conversions from one size or wattage of light to another or one type of light to another, the contribution-in-aid-of-construction shall be the estimated reasonable cost of removing the existing equipment and the installation of the new equipment. This charge does not apply if the street light is converted at the convenience of the Company or if the street light is owned by the customer. The Customer is required to inform the Company of the date and characteristic of such conversions as soon as possible.

Beginning on the effective date of this schedule, the rates are as follows:

|                             | <u>Luminare &amp;<br/>Mount</u> | <u>New Supply<br/>Connection</u> | <u>Removal<br/>Only</u> | <u>Wattage<br/>Conversion</u> |

| <u>High Pressure Sodium</u> |                                 |                                  |                         |                               |
| All Standard Wattages       | \$ 1,059.00                     | \$ 1,909.00                      | \$ 246.00               | \$ 592.00                     |

If the Customer requests that the Company provide facilities or an installation of excess of, or different than, those normally installed or if such excess installation is required by local, state, or federal ordinance, the total estimated additional cost shall be contributed by the Customer.

This contribution shall be in addition to any other service connection fee or contribution required under the "General Terms and Conditions." The contribution-in-aid-of-construction shall not be less than zero.

#### **NON-STANDARD EQUIPMENT**

Non-standard equipment, including all equipment not meeting ANSI Standards, if accepted by the Company for maintenance, will be subject to special contract charges and arrangements.

#### **GROSS RECEIPTS TAX**

A surcharge of 2.0408% is applied to the transmission and distribution components of the customer's bill to recover the amount attributable to the Gross Receipts Tax.

**CHARGES FOR SERVICING STREET LIGHTS  
SERVED FROM UNDERGROUND LINES  
SCHEDULE "SSL-UG"**

**AVAILABILITY**

Available throughout the Company's Maryland service area to Municipal, County, and Federal and State Governmental Agencies for servicing street, highway and park lighting equipment consisting of Customer-owned foundations, posts, brackets and luminaires when the electricity supplied to such equipment is furnished by the Company from underground lines.

Available only for lights having a manufacturer's nominal rating of:

|                      |                                  |
|----------------------|----------------------------------|
| Incandescent*        | 10,000 lumens or less            |
| Mercury Vapor*       | 175, 250, and 400 Watts          |
| Metal Halide*        | 70, 100, 175, and 250 Watts      |
| High Pressure Sodium | 70, 100, 150, 250, and 400 Watts |
| Induction QL         | 55 and 85 Watts                  |

\*Not available for new installation or replacement of defective fixtures

**CHARACTER OF SERVICE**

Service rendered under this schedule will consist of (1) furnishing, installing, connecting and maintaining electric service circuits connecting the street lighting equipment to the Company's underground distribution system, (2) group relamping, (3) washing of globes, (4) furnishing of labor required to replace ballasts and broken or damaged globes, and (5) furnishing and installing of replacement lamps and light sensitive switch units as needed to maintain the system in an operating mode; all normally limited to standard items of equipment meeting ANSI Standards for street lighting equipment and accepted by the Company for maintenance.

The Customer may provide their own maintenance at all light locations (including street lighting posts, foundations, brackets, fixtures, ballasts, light sensitive switch units and lamps). The supply circuits terminating at the luminaire would still be owned and maintained by the Company.

\*Not available for new installation or replacement of defective fixtures.

The above charges will be separate from and in addition to charges for electricity supplied under the provisions of Schedule "SL".

**RESPONSIBILITY AS TO FURNISHING, INSTALLING AND MAINTAINING EQUIPMENT**

The street lighting posts, foundations, brackets (if required), and luminaires complete with ballasts, light sensitive switch units and lamps shall be furnished, installed and removed by the Customer or at the Customers expense. Conversion to another light size or type shall be at customer's expense. All maintenance of the equipment installed at the customer's expense, including painting, shall be the responsibility of the customer, except as set forth under "Character of Service" above.

All equipment installed or furnished by the customer and the manner of installation shall be of a type approved by and coordinated with the Company prior to installation.

**CONTRIBUTION-IN-AID-OF-CONSTRUCTION**

The Company will connect or disconnect each street light from the Company's low voltage (120 volt) distribution system upon payment by the customer of a one-time contribution in aid of construction equal to the average cost per street light during the most recent three year period available. This fee shall be updated annually. The Customer also has the option, since it owns the lights, to request the Company to install the fixture at the cost shown below.

For removing a street light, the contribution-in-aid-of-construction shall include the cost to disconnect the supply circuit from the street light and the cost to maintain and/or rearrange the supply circuit. This cost shall be based on the average estimated reasonable cost per street light during the most recent three year period available to be updated annually. This charge does not apply if the street light is removed at the convenience of the Company.

For conversions, the Customer owns the street lights and has the option of performing the work itself or requesting the Company to perform the work. If the customer performs this work, the Customer is required to inform the Company of the date and characteristic of such conversions as soon as possible.

Beginning on the effective date of this schedule, the rates are as follows:

|                                  | <u>Luminare &amp;<br/>Mount</u> | <u>New Supply<br/>Connection</u> | <u>Removal<br/>Only</u> | <u>Wattage<br/>Conversion</u> |
|----------------------------------|---------------------------------|----------------------------------|-------------------------|-------------------------------|
| All Standard Types &<br>Wattages | \$1,593.00                      | \$2,736.00                       | \$ 140.00               | \$ 589.00                     |

If the Customer requests that the Company provide facilities or an installation in excess of, or different than, those normally installed or if such excess installation is required by local, state, or federal ordinance, the total estimated additional cost shall be contributed by the Customer.

This contribution shall be in addition to any other service connection fee or contribution required under the "General Terms and Conditions." The contribution-in-aid-of-construction shall not be less than zero.

**NON-STANDARD EQUIPMENT**

Non-standard, special and experimental equipment, including all posts and luminaires which do not meet ANSI Standards for street lighting equipment, if accepted by the Company for maintenance, will be subject to special contract charges and arrangements.

**GROSS RECEIPTS TAX**

A surcharge of 2.0408% is applied to the transmission and distribution components of the customer's bill to recover the amount attributable to the Gross Receipts Tax.

**CHARGES FOR SERVICING  
STREET LIGHTS SERVED FROM OVERHEAD LINES  
SCHEDULE "SSL-OH-LED"**

**AVAILABILITY**

Available in the Maryland portion of the Company's service area to Municipal, County, Federal and State Governmental Agencies for servicing street, highway and park lighting equipment mounted on Company-owned wooden poles or on poles of another utility with whom the Company has an attachment agreement, when the electricity supplied to such equipment is furnished by the Company from overhead lines.

Available only for LED lights having a high pressure sodium (HPS) equivalent manufacturer's nominal rating of: 50, 70, 100, 150 and 250 Watts.

**CHARACTER OF SERVICE**

Service rendered under this schedule will consist of (1) furnishing, installing, and maintaining street lighting luminaries, mounting arms or brackets and smart ready/smart associated equipment as applicable (2) furnishing, installing, connecting, operating and maintaining electric service circuits connecting the street lighting equipment to the Company's overhead distribution system, (3) furnishing and installing replacement globes, fixtures, and light sensitive switches as needed to maintain the system in an operating mode; all normally limited to standard items of equipment meeting ANSI Standards for street lighting equipment and accepted by the Company for maintenance.

If the Customer agrees in writing with the Company, the Customer may own its street lighting equipment at all locations to include the bracket, fixture and light sensitive switch unit. The maintenance for which can be supplied by the Customer or the Company. The supply circuits terminating at the luminaire would still be owned and maintained by the Company.

Street lights will be installed on existing Company-owned distribution poles or on existing poles owned by another utility where practicable.

| 100 Watt                | \$ 0.62       | \$ 0.99     | \$ 7.13                      |
| 150 Watt                | \$ 0.62       | \$ 0.99     | \$ 7.87                      |
| 250 Watt                | \$ 0.62       | \$ 0.99     | \$ 7.91                      |
| <b>Decorative Grade</b> |               |             |                              |
| 70 Watt                 | \$ 0.62       | \$ 0.99     | \$ 9.95                      |
| 100 Watt                | \$ 0.62       | \$ 0.99     | \$ 10.05                     |
| 150 Watt                | \$ 0.62       | \$ 0.99     | \$ 10.99                     |
| 250 Watt                | \$ 0.62       | \$ 0.99     | \$ 12.01                     |

The above charges will be separate from and in addition to charges for electricity supplied under the provisions of Schedule “SL”.

**CONTRIBUTION-IN-AID-OF-CONSTRUCTION**

The Company will supply for the Customer a luminaire (including lamp, globe and light-sensitive switch) mounting arm and/or bracket required, and smart ready/smart associated equipment (includes, but is not limited to, network – integrated LED hardware such as LED street light fixtures with smart nodes (photocells with network interface controller) as applicable upon payment by the Customer of a one-time contribution-in-aid-of-construction equal to the estimated reasonable installed cost of such equipment agreed to by the Company and the Customer at the time of the installation.

For a new overhead street light, this cost shall normally include the following:

1. The luminaire including the lamp, globe, light-sensitive switch, and mounting arm or bracket; and smart ready/smart associated equipment as applicable; plus,
2. Connection of the street light to the Company owned low voltage (120 volts) overhead distribution system; plus,
3. Installation of replacement poles if required by either the Company or another utility; plus,
4. Tree trimming and adjusting Company owned facilities or the facilities of another utility, in order to provide adequate clearances for the street light.

As discussed under Character of Service, if the Customer agrees in writing with the Company, the Customer may install their own street light and mount. The contribution-in-aid-of-construction shall include only the estimated cost of connecting the new supply (items 2-4 above).

For removing a street light, the contribution-in-aid-of-construction shall normally include the estimated reasonable cost of removing the existing luminaire (and/or bracket, if also removed). This removal charge shall not apply where the light is removed temporarily for repairs to the light or pole, or relocated in the immediate vicinity at the convenience of the Company (or other utility owning the pole on which the light is mounted).

For conversions from one size or wattage of light to another or one type of light to another, the contribution-in-aid-of-construction shall be the estimated reasonable cost of removing the existing equipment and the installation of the new equipment. This charge does not apply if the street light is converted at the convenience of the Company or if the street light is owned by the Customer. The Customer is required to inform the Company of the date and characteristic of such conversions as soon as possible.

If the Customer requests that the Company provide facilities or an installation in excess of, or different than, those normally installed or if such excess installation is required by local, state, or federal ordinance, the total estimated additional cost shall be contributed by the Customer.

This contribution shall be in addition to any other service connection fee or contribution required under the "General Terms and Conditions." The contribution-in-aid-of-construction shall not be less than zero.

In lieu of a one-time payment at the time of installation, the Customer may elect one of the following alternative payment options:

1. Finance the contribution-in-aid-of-construction through the Company, amortized over the number of years to be agreed upon by Pepco and the street light Customer at the applicable Commission-approved overall rate of return at the time of the installation, subject to update as approved in subsequent rate proceedings, if any.
2. A monthly service charge that amortizes the total cost of the installation or conversion, which will be based on the estimated reasonable cost of the LED installation or conversion at that time, over the depreciable life of the installed LED street lights at the applicable Commission-approved overall rate of return at the time of the installation, subject to update as approved in subsequent rate proceedings, if any.

The Customer may only choose a single payment option for all LED lights installed, unless otherwise agreed to by the Company.

#### **REPLACEMENT OF EQUIPMENT**

When replacement of installed equipment is necessary, the Company will replace such installed equipment upon payment by the Customer of a contribution equal to the Company's reasonable cost to replace the equipment. If the Customer has chosen either of the alternative payment options for the initial installation of the equipment subject to replacement, the replacement contribution will be added to the unrecovered balance, if any, of the initial installation contribution and recovered consistent with the elected option.

In lieu of the contribution at the time of replacement, the Customer may elect to pay a monthly charge to cover the cost of future replacements (Optional Replacement Charge). The Optional Replacement Charge will be effective at the time of the initial installation of the equipment and will remain in effect to the time of equipment replacement. The monthly Optional Replacement Charge for future replacement are listed in the table of monthly rates.

The Customer may only choose a single replacement charge option for all lights installed.

#### **NON-STANDARD EQUIPMENT**

Non-standard equipment, including all equipment not meeting ANSI Standards. If accepted by the Company for maintenance, will be subject to special contract charges and arrangements.

#### **GROSS RECEIPTS TAX**

A surcharge of 2.0408% is applied to the transmission and distribution components of the customer's bill to recover the amount attributable to the Gross Receipts Tax.

**CHARGES FOR SERVICING STREET LIGHTS  
SERVED FROM UNDERGROUND LINES  
SCHEDULE "SSL-UG-LED"**

**AVAILABILITY**

Available throughout the Company's Maryland service area to Municipal, County, and Federal and State Governmental Agencies for servicing street, highway and park lighting equipment consisting of Customer-owned foundations, posts, brackets and luminaires when the electricity supplied to such equipment is furnished by the Company from underground lines.

Available only for LED lights having a high pressure sodium (HPS) equivalent manufacturer's nominal rating of: 70, 100, 150, and 250 Watts.

**CHARACTER OF SERVICE**

Service rendered under this schedule will consist of (1) furnishing, installing, connecting and maintaining electric service circuits connecting the street lighting equipment to the Company's underground distribution system, (2) furnishing of labor required to replace broken or damaged globes, and (3) furnishing and installing of replacement fixtures and light sensitive switch units as needed to maintain the system in an operating mode; all normally limited to standard items of equipment meeting ANSI Standards for street lighting equipment and accepted by the Company for maintenance.

The Customer may provide its own maintenance at all light locations (including street lighting posts, foundations, brackets, fixtures and light sensitive switch units) excluding the supply circuits terminating at the luminaire.

The above charges will be separate from and in addition to charges for electricity supplied under the provisions of Schedule "SL".

**RESPONSIBILITY AS TO FURNISHING, INSTALLING AND MAINTAINING EQUIPMENT**

The street lighting posts, foundations, brackets (if required), luminaires complete with light sensitive switch units and lamps and smart ready/smart associated equipment as applicable shall be furnished, installed and removed by the Customer or at the Customer's expense. Conversion to another light size or type shall be at the Customer's expense. All maintenance of the equipment installed at the Customer's expense, including painting, shall be the responsibility of the Customer, except as set forth under "Character of Service" above.

All equipment installed or furnished by the Customer and the manner of installation shall be of a type approved by and coordinated with the Company prior to installation.

**CONTRIBUTION-IN-AID-OF-CONSTRUCTION**

The Company will connect or disconnect each street light from the Company's low voltage (120 volt) underground distribution system upon payment by the Customer of a one-time contribution in aid of construction equal to the estimated reasonable cost per street light agreed to by the Company and the Customer at the time of the connection or disconnection.

If along the street adjacent to the location of the street light or lights to be served, there is not available, as part of the Company's distribution system, a low voltage (120 volt) electric circuit usable for supplying the street lighting, a charge will be made in the amount of the estimated cost to the Company of installing the necessary circuit. When lights are to be supplied from underground lines in an area having existing overhead distribution, a charge will be made in the amount of the estimated cost to the Company of installing the necessary underground circuit. Also, if existing overhead lines must be adjusted to provide adequate clearance for the lights, the estimated cost thereof will be charged to the Customer.

For removing a street light, the contribution-in-aid-of-construction shall include the estimated reasonable cost to disconnect the supply circuit from the street light and to maintain and/or rearrange the supply circuit. This charge does not apply if the street light is removed at the convenience of the Company.

For conversions, there is no contribution-in-aid-of-construction since the Customer owns the street lights supplied from the Company's underground distribution system. The Customer would perform this work at

its expense. The Customer is required to inform the Company of the date and characteristic of such conversions as soon as possible.

If the Customer requests that the Company provide facilities or an installation in excess of, or different than, those normally installed or if such excess installation is required by local, state, or federal ordinance, the total estimated additional cost shall be contributed by the Customer.

This contribution shall be in addition to any other service connection fee or contribution required under these "General Terms and Conditions." The contribution-in-aid-of-construction shall not be less than zero.

In lieu of a one-time payment at the time of installation, the Customer may elect one of the following alternative payment options:

1. Finance the contribution-in-aid-of-construction through the Company, amortized over the number of years to be agreed upon by Pepco and the street light Customer at the applicable Commission-approved overall rate of return at the time of the installation, subject to update as approved in subsequent rate proceedings, if any.
2. A monthly service charge that amortizes the total cost of the connection or disconnection, which will be based on the estimated reasonable cost of the connection or disconnection at that time, over the depreciable life of the installed LED street lights at the applicable Commission-approved overall rate of return at the time of the installation, subject to update as approved in subsequent rate proceedings, if any.

The Customer may only choose a single payment option for all LED lights installed, unless otherwise agreed to by the Company.

#### **REPLACEMENT OF EQUIPMENT**

When replacement of installed equipment is necessary, the Company will replace such installed equipment upon payment by the customer of a contribution equal to the Company's reasonable cost to replace the equipment. If the Customer has chosen either of the alternative payment options for the initial installation of the equipment subject to replacement, the replacement contribution will be added to the unrecovered balance, if any, of the initial installation contribution and recovered consistent with the elected option.

In lieu of the contribution at the time of replacement, the Customer may elect to pay a monthly charge to cover the cost of future replacements (Optional Replacement Charge). The Optional Replacement Charge will be effective at the time of the initial installation of the equipment and will remain in effect to the time of equipment replacement. The monthly Optional Replacement Charges for future replacement are listed in the table of monthly rates.

The Customer may only choose a single replacement charge option for all lights installed.

#### **NON-STANDARD EQUIPMENT**

Non-standard, special and experimental equipment, including all posts and luminaires which do not meet ANSI Standards for street lighting equipment, if accepted by the Company for maintenance, will be subject to special contract charges and arrangements.

#### **GROSS RECEIPTS TAX**

A surcharge of 2.0408% is applied to the transmission and distribution components of the customer's bill to recover the amount attributable to the Gross Receipts Tax.

**TELECOMMUNICATIONS NETWORK SERVICE****SCHEDULE "TN"****AVAILABILITY**

Available for Distribution Service and Standard Offer Service when modified by Rider "SOS" in the Maryland portion of the Company's service area for unmetered electric service to multiple telecommunications network devices, cable television power supply devices or other devices used by government or police organizations with similar load characteristics served directly by the Company and not exceeding 1,800 watts per device.

**CHARACTER OF SERVICE**

The service supplied under this schedule normally will be alternating current, sixty hertz, single phase, 120 volts.

**MONTHLY RATE**

| Distribution Service Charge   | Rate Year 1<br>Effective<br>June 28, 2021 –<br>March 31, 2022 | Rate Year 2<br>Effective<br>April 1, 2022 –<br>March 31, 2023 | Rate Year 3<br>Effective<br>April 1, 2023 –<br>March 31, 2024 |
|-------------------------------|---|---|---|
| Kilowatt-Hour Charge (Summer) | \$ 0.02892  | \$ 0.02892  | \$ 0.02892  |
| Kilowatt-Hour Charge (Winter) | \$ 0.01586  | \$ 0.01586  | \$ 0.01586  |

**Generation and Transmission Service Charges** - Customers who do not receive service from an alternative Electric Supplier as defined in the Company's General Terms and Conditions will receive Generation and Transmission Services from the Company under the provisions of Rider "SOS" – Standard Offer Service.

**Billing Credit** - A monthly billing credit in the amount of \$0.74 will be applied to the bill of each customer receiving a consolidated bill from an alternative supplier for services provided both by Pepco and by the alternative supplier.

**MEASUREMENTS OF ELECTRICITY**

At the customer's option monthly kilowatt-hour consumption will be computed on the basis of either the manufacturer's average wattage ratings of installed devices, with no allowance for outages, or on the basis of statistically valid sampling techniques. If the customer chooses the option to use statistically valid sampling techniques, the initial measurement of electricity will be based on the manufacturer's maximum rating. When historical data are available for the customer's devices, that data will be used for the sample estimate. If historical metered data are not available, sample usage data may be obtained by means of a handheld current probe. The charges under this rider are for electricity only.

**GROSS RECEIPTS TAX**

A surcharge of 2.0408% is applied to the transmission and distribution components of the customer's bill to recover the amount attributable to the Gross Receipts Tax.

**GENERAL TERMS AND CONDITIONS**

This schedule is subject in all respects to the Company's "General Terms and Conditions for Furnishing Electric Service" and the Company's "Electric Service Rules and Regulations."
